COMUNIDAD RUBYMX

INFORMATION FOR SPONSORS

ABOUT RUBY MX

Hi!

We have noticed the rise in popularity of the language in the last year: both national companies and foreign startups have been looking at the developer market in Mexico as an alternative to get quality talent for their companies.

This is why Ruby MX was born, which is a community of learners, experts and enthusiasts of the Ruby programming language, where we support, promote and share our passion for the language.

OBJECTIVES

- Create a space where people interested in Ruby can meet and improve their skills by talking about related topics and by interacting with other language enthusiasts.

- Provide a space for companies looking for professionals specialized in Ruby to make themselves known. We believe that when a company shows off what it does, it generates interest in other developers to join it.

- Attract people from other languages to the Ruby ecosystem, which has proven to be an attractive option due to the job opportunities offered by the language and its related technologies.

HOW CAN YOU HELP US?

Thank you for your interest in sponsoring an edition of Ruby MX!

As a recently created community, we do not yet have a fixed space and that is why we are turning to you.

We are very interested in having your company support us as a host venue for one of our monthly editions.

We are looking for a space with a projector and capacity for 40 - 50 people where we can give the talks of the month and have a networking session at the end of the event.

If you would like to provide drinks and/or snacks, we would greatly appreciate it. If this is not possible, we will take care of it.

WHAT WE OFFER

- Event livestream on our YouTube channel

- Registration logistics and creation of advertising for the event.

- A 10-minute space for you to promote your company.

- The closing talk given by a speaker from your company.

- Promotion of your company's content or vacancies on our social networks.

**Do you have any other ideas in mind?
We'd love to hear from you.**
